Reaching for new Heights:
Top CFOs on the future of Silicon Valley

We just wanted to call your attention to [CFO.com's coverage](#) of our VOICES report "Reaching for New Heights" that appeared earlier today. *CFO Magazine* deputy editor David McCann focused mostly on the Business Environment section of the report, but also touched briefly on some of the results from the Funding and Employee Issues portions of the Voices survey. McCann pulled direct quotes attributed to Mark Muenchow, Jan Robertson, and Bob Worthington from the release and the report itself.
